

Alley Weigh Livestock Floor Scale

TECHNICAL SPECIFICATION

M640

M640XL

M915A

The portable Alley Weigh is an economical solution to the growing need for accurate and reliable electronic weighing on the farm.

- Nonskid surface
- Floor hugging design
- Portable
- Versatile

The indicator's unique, adjustable filtering provides accurate, stable readings despite animal movement.

FEATURES & BENEFITS

Versatile – The Alley Weigh accomplishes a multitude of weighing jobs on the farm. It fits easily into alleyways for weighing market hogs, nursery pigs, or other livestock. Its low profile makes it easy to weigh feed carts and bulk containers. The non-skid surface protects you and your livestock from accidental slips and falls. The adjustable foot pads allow it to work effectively on uneven floors.

Portable – The Alley Weigh is easy to move, weighing only 55 pounds. You can set it in place without ramps or recessed floors because it's only 1.75 inches high.

Economical – The Alley Weigh has no installation costs. And its Weigh Bar® system means there are no moving parts that require maintenance or adjustment.

Accurate – The Alley Weigh gives you consistent accuracy, within 0.5%, and it's compatible with a number of Avery Weigh-Tronix indicators for fast digital readout.

Dependable – The Alley Weigh is built by Avery Weigh-Tronix, a maker of quality electronic scales for over 35 years.

OPTIONS

Choice of Avery Weigh-Tronix Indicators:

640M/XL – The 640M and 640XL indicators provide simple yet accurate and reliable livestock weighing with AUTO-LOC and accumulation functions.

M915A – The Model 915A makes the chore of weighing livestock quicker and easier. Additional features include statistical functions, 1000 weighment memory and auto weight recording.

Power cable – 12 VDC power cable for external battery or 115VAC wall mount transformer.

Weigh Bars – 500 lb Weigh Bars only or Weigh Bars with convenient mounting brackets.
