

Model 915A

Animal Weighing Indicator

TECHNICAL SPECIFICATION

The Model 915A makes the chore of weighing livestock quicker and easier. It combines the features you want with the accuracy and reliability of Avery Weigh-Tronix that so many producers count on.

- Auto weight recording
- Statistical functions
- 1,000 weighment memory
- Auto-LOC display
- Report printing

FEATURES & BENEFITS

Auto weight recording – As animal walks on scale, the Auto-LOC selection allows display to capture animals weight and automatically store it. Up to 1,000 weighments can be stored in memory.

Animal statistics – Convenient viewing and printing of total number of animals weighed, individual weights, total weight, average, high, and low weight.

ID number – Enter up to 8 digit ID for more detailed record keeping of individual animals or groups.

M+, M-, RM keys – Can be used to manually accumulate weighments, recall weights and statistics, or undo recording of last weighment.

Weatherproof construction – Designed and built to withstand the rigors of livestock environment for years of reliable service. Rugged polycarbonate case and sealed front panel keeps the environment outside where it belongs.

Easy viewing – Large 1" display with bright, long lasting fiber-optic backlight and large built-in LED visual alarm indicates animal weight is recorded.

99.9% accuracy – Industry's most accurate line of indicators combined with worry-free reliability.

Remote alarm output – Connect external light, horn, gate controls, etc.

Field calibration – Basic set up and calibration conveniently performed at front panel.

Non-volatile memory – Retains active weight reading and statistics in the event of a power interruption.

Other convenience features – Self diagnostics simplifies troubleshooting, low battery warning, automatic zero tracking corrects for "dirt" accumulation on scale, and 12 volt DC operation for mobile equipment or field installations.

OPTIONS

Tape and Ticket Printers

RS-232 serial port – Bidirectional interface to printers, TDM-40 and PCs includes time and date

Remote display port – RD912 remote display lets you view weight from another location

TDM-40 – Transfer Data Module with TDS-40

Wireless hand-held transmitter/receiver – XM710-L radio control lets you zero, print, M+ or M-from 100 ft away

Weigh Bar kits – Available in many capacities and styles for squeeze chutes, alleyways, platforms, etc.

Model 915A Animal Weighing Indicator

SPECIFICATIONS

Indicator Enclosure: Impact, dust, and water resistant structural polycarbonate
8.75" H x 10.5" W x 6.5" D

Display: 8 digit, seven segment LCD,
1.0 inch high characters,
8 annunciators,
fiber optic backlighting

Power: 10 to 18 volts DC, negative ground

Annunciators: GROSS, ID, MEMORY, MOTION, TOTAL, AUTO, LB, and KG, Pound/Kilogram: Selectable

Display Rate: One, two, or five times per second

Motion Filtering: Normal, intermediate, high

Accuracy: ± 0.1% of applied load or ± one division

Environment: -20° F to 140° F (-29° C to 60° C)
to 95% non-condensing humidity

Weigh Bar® Drive Capacity: Ten 350 ohm Weigh Bars

Calibration: Front panel calibration and spanning on all types of Weigh Bars and load cells up to 200,000 lb.

Analog Span: 0.20 mV/V to 1.0 mV/V (full scale)

Auto Zero Tracking: Off, +/- 0.5, 1, 2, 3, 5, 10 divisions

Agencies: FCC Class A
CE (European Approval)

Warranty: Three years
